

### Therapeutic Lego Club

As part of our ongoing work with Crossley Hall Primary School, BCPRU pupils have been taking part in a therapeutic Lego Club to help children with autism develop their imagination, improve their communication skills and build new friendships.

Our PCSO, James Butterfield said 'this is a great example of partnership working in education, with all involved gaining valuable life skills and learning how they can have a positive impact in the community'.

Other activities planned with Crossley Hall Primary School include pupils from both sites working in their allotment area to gain knowledge and understanding of how vegetables are grown and how livestock are cared for.
